Company Overview

DNS Network was established in 2020 to provide IT Managed Services & IT Infrastructure Development for small to medium-sized businesses. Our mission from the very first day has been to cultivate professional relationships with our clients to provide effective and reliable IT Infrastructure Support for Clients needs.

DNS Network is working as a true partner for our clients. As a privately-held company with an experienced team, DNS Business has transformed into a leader in the IT industry with true focus on IT managed services & leading products for Big enterprises, Small and medium sized businesses and Government institutions.

DNS Network provide a reliable platform through our 24X7 available delivery model with onsite and remote support and services. With DNS clients receive IT support that will improve their business processes, provide unmatched value, and accelerate employee productivity through future proof technology and effective problem solving. We focus on delivering reliable solutions and innovations for veritable business benefits and delighted customers.

DNS is well known for being an exceptionally flexible service provider, meeting our specific client requirements, as well as driving efficiencies through best practices. With our innovative round the clock available support platform focused on Enterprise Service Delivery, DNS has a forte for delivering the core services which our clients need to utilize most.

"To help you inspire your audiences, be it your Client or Employee".

We strive to offer our clients a fulfilling experience by providing a wide range of services as separate products or as a collaborated effort, based on each client's requirements. Honesty and trust are extremely important components of our culture.

We strongly respect our clients' value systems and integrate them with ours when providing services to each individual business.

"Our strength lies in understanding every aspect of your requirements and our focus is on meeting and surpassing your expectations in every respect."

Our Approach

We approach every project with meticulous attention to detail and obsessive precision. Regardless of size and scope, we treat your project like a business with clear strategic goals, defined milestones, and a comprehensive plan to ensure that our service is delivered on time and in budget.

We helped our Clients to reduce the Technical Development and Maintenance Cost by 30% to 40% and considerable improvement in Quality-of-Presentations, for the services we offered since 2020.

We have always maintained a reputation for quality and have earned our customers trust with persistent performance and going the extra mile for them. We have delivered numerous small and large projects in the past and so do we continue the tradition of providing new and past clientele with service, quality, and schedules that meet or exceed the diverse and varying requirements of our client's expectations.
